Initiative, Global Institute of Sustainability,  
Arizona State University**

**Bonus film! EGO NOT BAD (26 min) featuring noted  
French author and filmmaker Arnaud Desjardins**

A QUEST FOR MEANING tells the story of an impromptu roadtrip undertaken by two childhood friends in an attempt to uncover the causes of the current world crises and discover a way to bring about change. Through the messages of activists, biologists, philosophers, and guardians of ancient traditions, Marc and Nathanael invite us to join them in their questioning of the world and offer alternatives to help the world of tomorrow.

A QUEST FOR MEANING is a life-changing journey that restores confidence in our ability to bring change within ourselves, and within society.
